-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Allowable Subject Matter

Claims 5, 9, 10, 15 and 19 are allowed.

However the indicated allowability of claims 6, 11 and 16 is withdrawn in view of the newly discovered reference to Lokovic et al. US patent no. 6,760,024 B1. Rejections based on the newly cited reference follow.

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 6, 11 and 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Lokovic et al. US patent no. 6,760,024 B1.

-Regarding claim 11, Lokovic et al. teaches a three-dimensional graphics drawing method for drawing an object based on color data and coordinate data (see column 1, lines 30-51), setting transmittance of the object based on a depth coordinate value included in said coordinate data (see fig. 13A-C, column 10, lines 19-41, 56-64); and drawing the object based on the color data including said transmittance set in the setting step and said coordinate data (see fig 17, column 20, lines 41-65, column 21, lines 21-39), wherein said step of setting the transmittance of the object includes the step of setting the depth coordinate value of the relevant object as the transmittance of the object (see column 10, lines 24-28, column 12, line 37-column 13, line 4).

-Regarding claims 6 and 16, Lokovic et al. further teaches setting the depth coordinate value of the object as the transmittance of the relevant object when the depth coordinate value of

Art Unit: 2671

the object is not greater than a threshold value (see column 12, lines 52-56), and sets a prescribed value as the transmittance of the object when the depth coordinate value of the relevant object exceeds the threshold value (see fig. 1, column 14, line 66-column 15, line 7).

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 6 is dependent on cancelled claim 1, it is unclear if the applicant intended to include the limitations of cancelled claim 1 to make the claim independent, to change the dependence of claim 6 to another claim, or cancel claim 6. For examining purposes, it is assumed that claim 6, includes all of the limitations of cancelled claim 1. Appropriate correction is required.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
